

WATER SUPPLY FROM SWIFT CREEK

Finance Committee to Visit the Territory on Monday.

THE PURE WATER DISCUSSION

Remarks on the Subject by Mr. Reuben Sheriffs and Superintendent Bolling. Wants of Council Committee.

Municipal Notes.

The Finance Committee of the City Council, accompanied by Superintendent Bolling, of the Water Department, will visit the Swift Creek water shed, in Chesterfield county, next Monday as guests of Mr. John C. Robertson.

The committee will leave Richmond at 9:30 o'clock on the Atlantic Coast Line to Centerville, at which point they will take carriages and drive over the territory. It will be an all-day trip.

The committee held an open meeting last night in the Council Chamber, at which time the proposition of the Swift Creek Company, which offers to supply the city of Richmond with pure, clear water at the rate of 2-4 cents a thousand for a daily consumption of from 10,000,000 to 12,000,000 gallons, or for 5-6 cents for a 20,000,000 gallons and upward consumption.

Mr. Reuben Sheriffs presented the proposition to the committee.

Inasmuch as the Swift Creek water is of the purest quality, and the project, the purity of the water, and the great volume at command.

PURE WATER.

"It has often been asserted," he said, "and sometimes by those whom opinions in such matters may not be lightly questioned, that the typhoid fever in this city has not been a cause of disease, that it is a pure and wholesome water. I beg to present for your most careful consideration some statistics of the typhoid fever death rates of various cities. It is not, probably, necessary at this late day to adduce evidence to prove that a high typhoid death rate shows a pure drinking water."

Mr. Sheriffs then exhibited tables showing the deaths from typhoid fever in Richmond for the years from 1881 to 1900, which figured out a rate of 60.7 per 100,000 population per annum.

SWIFT CREEK WATER-SHED.

Inasmuch as the Swift Creek supply, Mr. Sheriffs said: "Not only is it as easy to protect the water in the Swift Creek storage reservoir from pollution as thoroughly as is now done in the best water supply systems in this country, if not in the world, but the watershed itself is a clear and beautiful landscape, and which I have no knowledge. The present population is probably not over twenty to the square mile. The entire area is a sandy and gravelly soil, and the general declivity is gentle. All but the heaviest rainfalls will, therefore, reach the reservoir only after a long and slow run, and will be filtered and running off largely in the surface, and the surface washings will thus be reduced to a minimum.

"I venture with confidence the prediction that if it be adopted the typhoid death rate will drop from the present figure of 60.7 to below 20, if not to 10, and will be put on the use of water from other sources."

SUPT. BOLLING REPLIES.

In reply to Mr. Sheriffs, Superintendent Bolling showed that the death rate in a number of cities, so far as typhoid fever was concerned, was not so high as that in Richmond. He had compared the rate of certain cities, including Boston, Baltimore, Atlanta, Cincinnati, Charleston and Augusta, and in each instance the death rate was greater than Richmond, with the slight exception of Augusta.

"The cause of typhoid fever in Richmond has never been determined," said Mr. Bolling. "It may have been milk or water, or may have come from outside sources." He quoted from a report made by Mr. Sheriffs himself several years ago, in which he said the best way to purify water was by means of the settling basin.

Mr. Bolling read from a report made for the city of Petersburg by Civil Engineer Hayes, in which it was stated that the water supply of the Swift Creek shed was not sufficient for that city. He submitted that the proposed settling basin would answer all purposes for clearing and purifying the water, and stated that the whole cost of the proposed basin would be about \$15,000.

PERTINENT COMPARISON.

Comparison of cost of furnishing Richmond with water per annum delivered into the reservoir or mains:

Expense of pumping for 10,000,000 gallons a day, \$14,162.00; 20,000,000 gallons a day, \$18,994.00.

Cost of pumping and supplied from settling basin—10,000,000 gallons per day, \$22,360.20; 20,000,000 gallons per day, \$26,120.00.

Cost of pumping, settling and coagulating basin—10,000,000 gallons a day, \$33,550.00; 20,000,000 gallons a day, \$37,702.00.

Estimated cost of pumping, settling basin and mechanical filtration—10,000,000 gallons a day, \$33,944.00; 20,000,000 gallons a day, \$38,558.00.

Estimated on supply from Swift Creek as per proposed by Mr. J. C. Robertson:

10,000,000 gallons a day, \$138,755.00; 20,000,000 gallons a day, \$238,125.00.

The average daily consumption for 1900—10,500,333 gallons at \$3.50 per million, \$149,887.10; gross receipts from water for 1900, \$116,928.55.

A short session of the Grounds and Buildings Committee was held last night. The resignation of Mr. W. R. Craydon as a junior at the City Hall, was accepted at the request of Mr. Craydon, who enters into another business, and Mr. A. J. Roper, the substitute, was elected to fill his place, the change to take effect on February 1st. Mr. John Lohman was chosen as substitute.

The wants of the committee were fixed at \$114,481.71 for the coming year.

A communication from Captain A. Pizzini, Jr., offering to erect an electrical fountain at Reservoir Park at a cost of \$5,000, was referred to a subcommittee.

GOVERNOR'S STAFF HAS BEEN NAMED

The List of New Colonels Is Made Public.

COL. CABELL CHIEF OF STAFF

Five Richmond Men Honored—Penitentiary Board Appointed—No Action in Fulton Case—Capital Notes.

Governor A. J. Montague yesterday announced the appointment of his staff and of directors of the penitentiary. Mostly new men are named in each instance.

Colonel George A. Cabell, Jr., of Danville, is chief of staff, as was anticipated by The Times some time ago.

These gentlemen compose the staff: George C. Cabell, Jr., Danville, Chief of Staff; R. E. Lee, Jr., Fairfax county, Chief of Ordnance; Barton H. Grundy, Richmond, Quartermaster-General; E. B. Holland, Nanamoud, Judge-Advocate-General; John S. Harwood, Richmond, Commissary-General; Jas. C. Watson, Washington county, Chief of Engineers; Dr. R. N. Harper, Surgeon-General; L. W. Lane, Jr., James City county, Inspector-General of Rifle Practice; Henry C. Kasey, South Boston, Paymaster-General; Henry C. Baker, Frederick county, Chief of Artillery; Mann S. Valentine, Jr., Richmond, Aide; E. Randolph Williams, Richmond, Aide; Hunt Chipley, Richmond, Aide; St. John C. Goode, Mecklenburg, Aide; Henry M. Lewis, Albemarle county, Aide; Sidney Shelman, Montgomery county, Aide; John R. Saunders, King and Queen, Aide; H. H. Wayt, Augusta, Aide.

Only one member of the present Board of Directors of the State Penitentiary is retained. This is Mr. W. D. Chesterman, managing editor of the Dispatch. The other appointees are Mr. Joseph Bryan, president of the State Bank, and Mr. Milton E. Marcuse, a prominent manufacturer and well known business man.

The directors not reappointed are Col. John Murphy and Mr. A. C. Harman. Col. Murphy was very anxious to resign during the session of the General Assembly, but Governor Montague some time ago, saying that he greatly preferred not to be appointed again. The Governor appreciates the excellent and efficient service rendered by Mr. Harman, but felt that the Governor's staff should not be wise to appoint on the board a member of the Legislature. The present General Assembly will have to deal with important matters affecting the penitentiary. Dr. C. V. Carrington is reappointed surgeon to the penitentiary.

The Board of Education held a meeting yesterday. Two matters were considered, but no decision was taken in either. There was an appeal from Isle of Wight county as to the continuance of a certain school. Some patrons want it discontinued, while others are fighting this. The matter not having been properly brought before the board, no action was taken.

The Grayson county case, in which the Senate failed to confirm the appointment of J. K. Fulton, as superintendent, was considered, but as the matter is in the hands of the Senate, where charges which were not intimated to the board when the selection was made, were preferred, no action was taken.

Governor Montague has commuted the sentence of Albert Paxton, of Danville, to three months in jail for felonious assault. His sentence was six months.

In the office of the Secretary of the Commonwealth the following charters were filed: Wheaton Oyster Company, Wheaton Mercantile Company, Roanoke Biscuit Company, Pulaski Oil and Gas Company, Stone Printing and Manufacturing Company, amended charter.

Governor Montague has appointed C. Lee Bowers a notary for Shenandoah county.

FOUND AT LAST

A true remedy—not a patented fake—but a real cure. IRONAL Tablets cure any Stomach, Bowel or Liver trouble. Price \$1.00, or Trial Size 25c; all drug-gists.

Read what the Medical Profession say of this great remedy.

Dr. THOMAS S. MITCHELL, Hamilton, Ga., writes: "I have a very interesting case from an accumulation of Phlegm in a Paralyzed Throat. When the patient was fast sinking from oppression of phlegm, IRONAL relieved him promptly and saved his life, when all reliable remedies failed. It was a trial, but a great success."

W. M. P. BALLANCE, M. D., President National Electro-Medical Institute, New Haven, Conn., writes: "Am much pleased with the IRONAL. We find it an admirable Tonic in Diseases of the Stomach, associated with faulty assimilation. We have used it with success as a General Appetizer, and for Anaemia of Women."

Dr. J. D. POPE, Monticello, Ark., speaking of IRONAL, says: "It is a most excellent remedy, and, so far, I am particularly impressed with its powers. It is just the remedy we have long wanted, especially for Indigestion."

WINDY POINTERS EAT AND TALK

This Famous Club Enjoy a Feast; Crisp Speeches and Merry Songs.

The mid-winter festival of the Windy Point Club was held at Corcoran Hall last night. The same old Windy Pointers were there, though probably not so many as when the club has its watermelon feasts on the park.

Captain John A. Curtis, the president, has all smiles, as usual, and made some of his raciest presentations of speakers. There were a number of guests on these occasions, was again on hand. So were a number of others fortunate to taste of the bountiful hospitality of the club. A first rate spread, perhaps a more pretentious banquet than ever before, was laid out for the delectation of the members and their guests. And it is tame and inexpressive to say that all ate and it enjoyed it with large, if not increasing, appetites, but that is strictly true. And one must tell the truth about the Windy Point Club or he lies, just as he says: "He's a liar, he's a liar, just now."

Speeches and songs followed the staying of the famine and the slaking of the thirst of these honest men. "Honest Dick" Taylor was among the first to be called upon. The Mayor Montague, a local breasted politician. Probably he didn't think of it, but the rules of the club are strict against the very breath of politics on occasions like this. Other speakers were Mr. John M. Higgins, Senator Keozell, George Watt Taylor, D. C. Richardson, E. A. Catlin, Rev. George H. Spooner, of the Trinity Methodist Church, and several others. Mr. E. H. Clowes, Captain Cunningham, and Mr. W. C. Armitage sang solos and the entire company sang half a dozen or more pieces in chorus. The company parted for the night and until the next feast, with a prayer offered by Mr. Spooner.
